

HTML Dog: (<http://www.htmldog.com/>)

Use a simple text editor for these tutorials. Do NOT use Dreamweaver.
PAY ATTENTION TO THE FORMATTING OF YOUR CODE. USE INDENTS TO
MAKE IT MORE READABLE.

DUE: FEB 4:

When finished, you will submit a one page typed paper summarizing what you've learned- so take notes, and be prepared.

HTML REVIEW: HTML Beginner

Read through html beginner and note anything you are not familiar with.

- Make an un ordered and an ordered list on your page.*

Skip forms and go right to **CSS BEGINNER**

CSS BEGINNER

Do all. Use your html from the last tutorial to start with.

Play around with the attributes. Change your html as needed to reflect css changes.

HTML Intermediate

Read all. (just read, don't DO)

CSS Intermediate

Play with class selectors and ID selectors- apply them to your page.

HTML Advanced
